

February Highlights at Foundations EDU

Students did amazing "Winter Wonderland" themed paintings. We learned some fun painting techniques such as picking out colors, blending, using a fan brush, and even painting with toothbrushes and plastic palette knives! We have very talented young artists!

We tuned in live to hear author Alan Gratz speak about his new book, *Ground Zero*.

Our students worked together to solve the Valentine's Day Escape Room Mystery. The students showed incredible teamwork to solve many different kinds of puzzles and find the missing code.

Jacob Barilla made the tallest standing "Winter Castle" from marshmallows and spaghetti. His tower stood at an impressive 21 inches tall!
