

May Highlights at Foundations EDU

We used math manipulatives and base ten blocks for some hands-on learning with regrouping in subtraction.

Fiesta Week was a blast. We learned many Spanish dances and traditional Spanish games and activities (as well as some newer games like **GIANT** Throw Throw Burrito). So fun!

We planted our flowers we've been growing just in time for Mother's Day!

Our "Ninja Stars" are learning to throw (paper) ninja stars!

The girls showed their stuff and claimed victory over the boys in an intense game of Tug-Of-War!
