

Our purpose is to provide extra academic assistance in a supportive learning environment for students' remote, hybrid, or homeschooled learning. In addition to helping students with their schooling, we offer a variety of fun and unique educational opportunities for students to participate in.

Foundations EDU

2020 - 2021

Our focus has been on supporting students academically, and promoting teamwork, creativity, and hands-on learning.

This year was a wild year for students as they had to navigate remote, virtual, and hybrid learning. Schedules changed, often with extremely short notice due to Covid-19. In a year where nothing was guaranteed, Foundations EDU stayed committed to supporting students and their families through the changes.

We have served over 75 students from different school districts within Oswego County!

In addition to helping students with their academic curriculums we offered a variety of fun and engaging activities for students to participate in. One of our favorite weeks was "Food Week" where we learned how to read, measure, and make healthy recipes while learning about nutrition and leading a healthy lifestyle. Another week we loved was "Everyday Heroes Week" where we welcomed guests from the community who make a positive impact. We learned about what they do and were able to ask them questions. For any questions about the program please email FoundationsEDU2020@gmail.com or call (315) 216-4021.
